4. Developments in Areas of Continuing Concern.

a. Iran - The schism between Prime Minister Bazargan and Ayatollah Khomeini is expanding over the issue of the revolutionary committees. Bazargan's resignation would benefit the Left and bring closer the anticipated showdown between the Left and Khomeini's Islamic committees.

b. Egypt/Libya - There appears to be a lessening of tension along the border but troop levels remain high as does the chance of an incident that could lead to a serious clash.
